The pictures below show possible layouts for your map page. The gray and black lines in the pictures show you where your words will appear on the finished page.

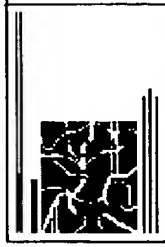

5-1102

h011-

Your address appears at the top right of the page above your map, separated by a thin line. Your directions' headline and text appear to the left of your map below the line. Your headline appears in bold.

9011-1106

Your address appears at the top of the page, between two thin lines. A bold headline appears under your address, followed by your directions and other information.

8011-8

Your address appears at the top of the page, placed over a thick bar of color. Your directions' headline appears below in bold, followed by your directions and other information.

Create your map's appearance

Here you'll decide how your map will be displayed the first time your customers view it. Your customers will zoom in and recenter the map interactively after they see the view you create here.

If you'd like to change the map's initial appearance you may recenter it, zoom in, or zoom out. Your change when you publish this page.

Site Building : Map and directions : Directions

Directions

If you'd like to add directions to your map page, do so here.

Write a headline for your directions.

For example, "Directions From Highway 101 South."

Add your directions here.

For example, "Take Highway 101 South to the Alemany Boulevard exit. Turn Right on Bayshore. Drive two

If you'd like to add more information to your map page, do so here.
